Seasoned Engineering Manager and Technical Hiring Leader with over 10 years of experience in the software industry. Specialized in building, scaling, and mentoring high-performing engineering teams. Possesses a strong background in full-stack development, enabling deep understanding of technical roles. Passionate about streamlining recruitment processes, identifying top-tier talent, and fostering a culture of technical excellence and continuous learning.

CORE COMPETENCIES

Leadership: Engineering Management, Agile Leadership, Team Mentorship

Talent Acquisition: Technical Recruiting, Interview Pipeline Optimization

Technical: Software Architecture, System Design, Full-Stack Development

Strategy: Cross-functional Collaboration, Resource Allocation

PROFESSIONAL EXPERIENCE

Director of Engineering

Mar 2022 – Present

TechNova Solutions — Colombo, Sri Lanka

- Lead and oversee the engineering department, managing a diverse group of 40+ software engineers, QA testers, and DevOps specialists.
- Drive all technical hiring initiatives, partnering with recruiters to source, interview, and onboard top-tier talent.
- Successfully scaled the engineering team by 150% over 18 months while maintaining high retention rates.
- Reduced the average time-to-hire by 20% through optimizing interview pipelines and implementing standardized technical assessments.
- Foster a culture of continuous learning, organizing regular technical workshops and establishing clear career progression paths for engineers.

Engineering Manager

Jan 2018 – Feb 2022

CloudScale Inc. — Colombo, Sri Lanka

- Managed three agile full-stack development squads delivering enterprise SaaS solutions to global clients.
- Designed and implemented comprehensive technical assessment frameworks used for interviewing both backend and frontend engineering candidates.
- Mentored junior and mid-level engineers, facilitating their growth into senior roles through targeted coaching and pair programming initiatives.
- Collaborated closely with Product Management to define technical roadmaps, align engineering resources with business objectives, and ensure on-time delivery of key features.

Senior Software Engineer

Jun 2012 – Dec 2017

InnovateTech — Colombo, Sri Lanka

- Architected and developed core modules for high-traffic e-commerce platforms using C# and .NET frameworks.
- Actively participated in technical interviews for engineering roles, establishing a foundational understanding of effective technical evaluation.

EDUCATION

BSc (Hons) in Software Engineering

2008 – 2012

University of Colombo, Sri Lanka
