PROFESSIONAL SUMMARY

A highly motivated and detail-oriented Software Engineer with experience in developing scalable web applications. Passionate about problem-solving, clean code, and working in agile environments to deliver robust software solutions. Proven ability to build full-stack applications and collaborate within cross-functional teams to meet business objectives efficiently.

KEY SKILLS

- Languages & Frameworks:** C#, .NET Core, JavaScript, TypeScript, Angular
- Databases:** MongoDB, MS SQL Server
- Tools & Methodologies:** Git, Docker, RESTful APIs, Agile Methodologies

WORK EXPERIENCE

Software Engineer

TechCorp | Jan 2022 – Present

- Designed and developed robust, high-performance APIs using C# and .NET Core.
- Built responsive and dynamic user interfaces utilizing Angular, enhancing overall user experience.
- Collaborated with cross-functional teams including designers and QA to ensure seamless software delivery.
- Participated in code reviews to maintain high code quality and adhere to industry best practices.

Junior Developer

WebSolutions | Jun 2020 – Dec 2021

- Assisted in database design and optimization, working extensively with MongoDB.
- Developed and maintained backend API endpoints using Node.js and Express.
- Troubleshoot and resolved software defects in legacy applications.

EDUCATION

BSc (Hons) in Computer Science

NSBM Green University | 2017 – 2021

- Core coursework included Data Structures, Algorithms, Software Engineering, and Database Management.
- Successfully completed a final year project focused on full-stack web application development.
